

COVID-19 UPDATE 8/12/20

Dear Customer, Supplier or Partner:

CED is continuously reviewing and updating our COVID-19 practices and adopting new guidelines in order to keep our employees and your employees safe.

MASKS ARE REQUIRED TO ENTER OUR BUILDING:

In accordance with Governor DeWine's Mask Order effective 7/23/20, all persons entering our building will be required to wear face masks until further notice.

The CED Sales Counter is now open for customers who wear a mask and social distance; however, CED is still offering curbside order pickup for customers who prefer that service or cannot wear a mask for personal or health reasons.

MAINTAINING A CLEAN, HEALTHY ENVIRONMENT:

Hand sanitizing stations have been set up at all entrances/exits and in numerous locations throughout the building.

We continue to practice routine deep cleaning of our facility and our vehicles with medical grade disinfectants.

Our drivers wear gloves and masks and/or shields for all deliveries, while maintaining a safe social distance at delivery sites whenever possible. Drivers will request verbal confirmation that it is okay for them to sign for the customer on the Proof-of-Delivery app in order to minimize contact. If this is not feasible for any reason, our drivers will take a picture of the delivered product as proof of delivery.

Thank you for your continued support during these challenging and uncertain times.
